Profile

Informatics graduate with a strong passion for software development, specializing in web and mobile applications. Hands-on experience in developing real-world projects during internships, using technologies such as Flutter and Next.js, along with building internal web-based systems. Proficient in applying clean architecture principles, backend integration, and working effectively in team environments. A fast learner with a strong drive to continuously grow and adapt to modern technologies.

Experience

Founder & Full-Stack Developer, *Codevela* 03/2026 – Present

- Founded and managed Codevela, a freelance software development service specializing in web and mobile applications. Delivered multiple client projects, including company profile websites, React Native applications, and custom software solutions.

Mobile App Developer, *PT Gresik Migas (Internship)* 05/2025 – 06/2025

- Developed a Human Resource Management System (HRMS) mobile application using Flutter and Firebase. Built features such as authentication, location-based attendance with selfie verification, attendance tracking, role-based dashboards, and announcement management. Integrated Firebase services. Improved usability through testing and presented the final solution to stakeholders.

Full-Stack Developer, *BTPN Syariah (Internship)* 10/2022

- Contributed to the development of various internal systems using Vue.js, Java, Go, SQL, and Git. Gained hands-on experience with microservices architecture and developed a strong understanding of the professional software development lifecycle.

Full-Stack Developer, *PT Sinergi Informatika Semen Indonesia (Internship)* 07/2021 – 12/2021

- Developed a responsive company landing page using Bootstrap and Vue.js. Designed business process flowcharts for distribution and sales, and created intuitive UI/UX prototypes in Figma. Managed and maintained product distribution data using spreadsheets. Enhanced technical proficiency with developer tools including CLI, Git, and Vue routing.

Education

S1 PJJ Informatika, *TELKOM UNIVERSITY* 07/2022 – 07/2026

GPA: 3.68 (Cumlaude)

Rekayasa Perangkat Lunak, *SMK SEMEN GRESIK* 07/2019 – 05/2022

Skills

Tech Stack
NextJS, Flutter, Laravel, PHP, MySQL, Dart, Firebase, Supabase

Soft Skills
Problem Solving, Team Collaboration, Clean Code, Agile Mindset, Attention to Detail, Usability Focused

Supporting Skills
Git, GitHub, REST API, UI/UX Design (Figma), SQL, Java, Vue.js, Bootstrap, Command Line Tools, Postman

License & Certification

Competency Assessment: Special Job Market Application Developing - Very Competent
SMKS SEMEN GRESIK
